### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance:

Claims 1-6, 8-10, 12-17 and 20 are allowable over the prior art of record because the prior art of record does not teach or fairly suggest the entire combination of elements set forth including: an engagement surface of the flange portion, where the inner flange portion engages the outer flange portion, having a flange-side end and bobbin-trunk side end, the flange-side end being radially farther away from the bobbin trunk than the bobbin-trunk side end is (claims 1 and 12); and the outer flange being made of magnesium alloy and that the engagement surface have a V-shape (claim 10). In the prior art of record, Lorenzo (USP 5,415,362) discloses a V-shaped engagement portion in Figures 7-9 but does not provide the proper motivation to modify Beiber '876 to have such a V-shaped engagement portion.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Emmanuel M Marcelo whose telephone number is 703-305-6597. The examiner can normally be reached on Monday - Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Katherine Matecki can be reached on 703-308-2688. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
